Work Experience

SDAC Infotech   *Intern*
Full Stack Developer Intern   *April 2023 - June 2023*
SDAC Infotech - Mumbai, MH

- ◦ D Built website content and designs using HTML and Css.
- ◦ Contributed to team drafts of documents and projects to aid web management.
- ◦ Kept detailed documentation on test plans, procedures and end results.
- ◦ Gathered, defined and translated client requirements into product stories and actionable tasks.
- ◦ Led and collaborated with a team of developers, ensuring timely completion of tasks through synchronized efforts.

Projects

E-commerce Website for 9TeenBasic

- Built a **responsive jewellery e-commerce website** featuring product listings, detailed product pages, shopping cart, and a smooth checkout flow.Focused on **clean UI, mobile responsiveness, and user-friendly navigation**, ensuring a seamless shopping experience.Implemented structured layouts suitable for future payment gateway and order management integration.

BallItOut

Football Match Rating app like Imdb
Created a **football match rating and review platform** where users can rate matches out of 10 and post short reviews.
Designed a **user-friendly interface** with match cards, rating system, and review display functionality.
The project highlights skills in **frontend development, user interaction design, and full-stack planning**.

CallItOut

Football Match Prediction Model:

- Developed a **machine learning model** to predict football match outcomes using historical match data and team performance statistics. Performed **data preprocessing, feature selection, and model evaluation** to improve prediction accuracy. This project demonstrates practical application of **data analysis, ML algorithms, and sports analytics**.

Technical Skills
